

MUDDALURU JAGADISH RAJU

mraju@gitam.in — +91-8121488115
linkedin.com/in/muddaluru-jagadish-raju — github.com/mjagadishraju21

Profile

Computer Science (AIML) student with practical experience in Machine Learning and Artificial Intelligence. Strong in Python, problem-solving, and building data-driven applications. Possesses solid understanding of Data Structures, Algorithms, and DBMS, with interest in developing scalable real-world solutions.

Education

GITAM University, Bengaluru	2023 – 2027
Bachelor of Technology in Computer Science (AIML)	CGPA: 8.08
Relevant Coursework: Data Structures, Algorithms, Machine Learning, Database Management Systems, Artificial Intelligence, Operating Systems	
RAJU Junior College, Rayachoty	2021 - 2023
Intermediate (IPE)	84.7%
RAJU High School, Rayachoty	2020 - 2021
SSC	100%

Technical Skills

Programming: Python, Java, C
AI/ML: Machine Learning, Deep Learning (Fundamentals), Data Analysis
Libraries: NumPy, Pandas, Scikit-learn, OpenCV (basic)
Core Concepts: Data Structures, Algorithms, OOP, DBMS
Web Development: HTML, CSS
Databases: SQL
Tools: Git, GitHub, VS Code

Experience

Machine Learning Intern, SkillCraft Technology	2026
- Worked on machine learning workflows including data preprocessing, feature extraction, and model training - Assisted in analyzing datasets and improving prediction performance - Gained practical exposure to real-world ML problem-solving approaches	

Projects

AI-Driven WhatsApp Automation & Chat Analysis Platform	2025
- Developed an AI-based system to automate WhatsApp communication workflows - Integrated APIs for message handling, response automation, and data processing - Performed chat data analysis to identify usage patterns and improve responses - Designed modular workflow logic for scalable automation	
CropDoctor – AI-Based Plant Disease Detection System	2025
- Built a machine learning model to classify plant diseases using image datasets - Applied preprocessing, feature extraction, and model training techniques - Improved prediction consistency through dataset refinement - Developed a user interface for real-time image-based disease detection	
AI-Powered Hydroponics Analytics System	2025
- Designed a system to monitor plant growth using environmental and sensor data - Applied machine learning techniques to analyze growth patterns - Generated insights to optimize water, nutrients, and environmental factors - Supported decision-making using data-driven analysis	
IoT-Based Smart Waste Management System	2024
- Built a smart monitoring system using sensors for bin-level detection - Implemented real-time alerts and notifications for waste collection - Demonstrated IoT system architecture and real-time monitoring concepts - Improved understanding of embedded systems and data communication	

Certifications

- Salesforce Certified Agentforce Specialist
- Networking Basics – Cisco Networking Academy (2025)
- Mastering Advanced Generative AI Models – GITAM Workshop

Achievements

- Runner-Up – Internal Smart India Hackathon (2025)
- Participated – Smart India Hackathon (2024)
- NCC 'A','B' and 'C' Certificate Holder

Leadership & Activities

Former Cadet, National Cadet Corps (NCC)	2023 - 2026
• Demonstrated leadership, discipline, and teamwork through structured training • Participated in camps, drills, and community service activities • Developed organizational and coordination skills	
Workshops & Bootcamps Lead, E-Club	2024 – Present
• Organized entrepreneurship workshops, events, and bootcamps • Coordinated teams, managed logistics, and ensured smooth execution • Improved participation through effective planning and communication
